**SEM Committee Decision for the Regulatory Authorities in relation to SEMOpX SPX_02_18
(Modification Proposal Form SPX_02_18)**

Dear Michael,

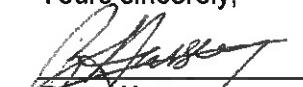

On 8 November 2018, SEMOpX submitted its Modification Proposal Form with regard to SEMOpX rules Modification Proposal SPX_02_18: Change to the Definition of Matched, Matching and Match in accordance with Paragraph J.4.1.1 of the SEMOpX Rules.

The definition of 'Matched, Matching and Match' within the SEMOpX Glossary is intended to define the matching of Orders within the Day-Ahead and Intraday Auctions and intraday continuous market and this modification has been raised as the current definition is not sufficiently clear that this relates to all SEMOpX Market Segments. The RAs understand that the revised definition is intended to add clarity to this without changing the intended meaning of the Definition and that implementation of this modification will further the SEMOpX Principle that the SEMOpX Rules should reflect the system design and capabilities and service provided arrangements.

The Regulatory Authorities note that this modification was presented to the SEMOpX Exchange Committee Meeting 1 on 28 November 2018 and information was provided in relation to the reasoning for the proposed change. Following discussion, the modification was approved by all Exchange Committee Members.

Considering the above, and in accordance with Paragraph J.4.1.1 of the SEMOpX Rules, the Regulatory Authorities approve the Modification as set out in SPX_02_18.

Yours sincerely,

Barry Hussey,
Manager, Wholesale Electricity Markets
