

Submission Report

SPX_02_23 Recommendation Reporting Timeline

1 EXCHANGE COMMITTEE MEETING 11

Proposer SEMOpx

The Proposer provided an overview of this Modification Proposal noting that it would remove a requirement to issue a Recommendation Submission Report within 40 Working days after receipt of a Proposal. It was advised that this would give Committee Members the option whether to have a further Committee Meeting or to carry their Proposal on to the next scheduled 6 monthly meeting. Assurance was given that the service to Members would not be impacted, and this would require limited drafting changes.

Support was given for this Proposal by Members.
