Explanation of Proposed Change				

# (mandatory by originator)

This modification proposes to update the SEMOpx Operating Procedures to align with all report publications as described in the SEMOpx Data Publication Guide (version 7.9) by including the details of the following omitted reports:

- **EA-021 REMIT Files**
- **EA-010 Interconnector Capacities NTC**
- **EA-011 Interconnector Capacities ATC**
- **EA-012 Interconnector Flows**
- EA-025 DAM 60Min Harmonised Reference Price

The updates are limited to the SEMOpx Operating Procedures. No updates to the main SEMOpx Rules and Glossary documents are seen as necessary.

## **Legal Drafting Change**

(Clearly show proposed change to SEMOpx Rules (including Appendices and Operating Procedures) using tracked changes, if proposer fails to identify changes, please indicate best estimate of potential changes)

# **Modification Proposal Justification**

(Clearly state the reason for the Modification)

This modification proposes to update the SEMOpx Operating Procedures to accurately reflect the reports publication list from the SEMOpx Data Publication Guide. Since their respective implementation, reports EA-010, EA-011, EA-012, EA-021 and EA-025 have been published on the SEMOpx Website, however these 5 reports were omitted from the sections B.4.2, C.4.2, D.3.3, and Appendix A: Schedule A.6 of the SEMOpx Operating Procedures.

## **SEMOpx Objective and SEMOpx Principles Furthered**

(State the SEMOpx Objective and Principles the Proposal furthers, see Section A.1.2 of the SEMOpx Rules for further details)

The principles of the SEMOpx rules are:

A.1.1.2 The SEMOpx Objective is supported by the following principles: that the SEMOpx Rules should:

- enable compliance with the regulatory requirements of the European Union, Ireland and Northern Ireland;
- (b) promote competitive outcomes through provision of efficient and effective exchange services;
- (c) conform with regional and European-wide arrangements for Market Coupling;
- (d) be transparent, not unduly discriminatory, and promote market integrity and confidence;
- (e) reflect the system design and capabilities and service provider arrangements;
- (f) provide Exchange Members with opportunities to be consulted on changes to SEMOpx Rules and Procedures; and
- (g) promote data security, integrity and confidentiality,

being the "SEMOpx Principles".

This modification proposal furthers the SEMOpx Principles (b & e) above by ensuring:

- that members and markets are provided with efficient and effective reporting services
- A.1.2 the SEMOpx operating procedures reflect the market data publication set up in place

### Implication of not implementing the Modification Proposal

(State the possible outcomes should the Modification Proposal not be implemented)

If this modification is not implemented, the SEMOpx Operating Procedures would not reflect the true market data publication details. This could lead to a lack of clarity amongst members around what market reports are being published and when.

#### **Impacts**

(Indicate the impacts on systems, resources, processes and/or procedures; also indicate impacts on any other Market Code such as Trading and Settlement Code, Capacity Marker Code, Grid Code, Exchange Rules etc.)

The SEMOpx Operating Procedures need to be updated, which will be achieved through this
modification. There are no foreseen updates required to the associated SEMOpx Operating
Procedures Glossary, SEMOpx Rules or SEMOpx Rules Glossary in this context as the
required changes are limited to the SEMOpx Operating Procedures.

Please return this form to Secretariat by email to  $\underline{\text{exchangecommittee@semopx.com}}$
